Dear Parents and Carers

As you are aware Chartwells Catering Company are our catering providers. They are changing the Dinermight card system currently used to the new biometric system requiring a thumb print for each student. The advantage is there will be no need to pay for new cards if they are lost or damaged. All students will have to go through the process of biometric registration to be able to use the system. Therefore, we need your consent to take thumb prints. We would appreciate it if the consent forms are returned no later than March 27th 2017 to assist a smooth changeover.

Please note your child will not be able to purchase food or drinks without this registration. Gathering the data is therefore urgent.

Could you please complete the consent form below giving your permission for your child to complete the biometric registration.

Consent Form

I hereby give permission for (child's name).....
